

DRYWALL FINISHING PRODUCTS

PREMIUM PAPER-FACED METAL PRODUCTS

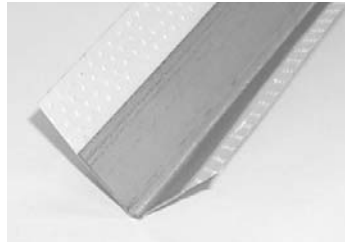

- Quick and easy installation.
- More absorbency to cure faster and prevent edge cracking.
- More pronounced anchors and dimples for better adherence and proper joint-compound thickness.
- Greater wet strength.
- Resistance to balling or delamination.

EXTRA WIDE OUTSIDE CORNER kwikSTIK PIXW EL - TAPE ON:

PEW

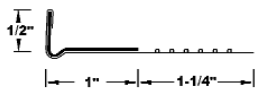

Lgth	Pcs/Ctn	Ft/Ctn
7'	50	350
8'	50	400
9'	50	450
10'	50	500

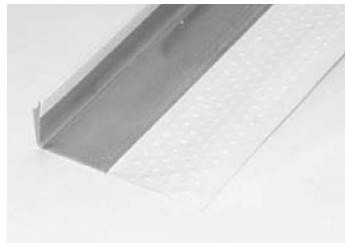

Designed for open angle wall intersections on inside open angle corners.

L 1/2" PAPER TRIM kwikSTIK P4 - TRIM:

PL1

Lgth	Pcs/Ctn	Ft/Ctn
7'	50	350
8'	50	400
9'	50	450
10'	50	500

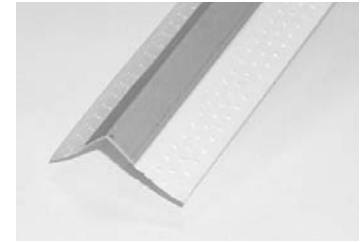

L-shaped $\frac{1}{2}$ " and $\frac{5}{8}$ " trim is designed for a clean, professional finish. Best for areas where $\frac{1}{2}$ " and $\frac{5}{8}$ " drywall runs adjacent to masonry walls, cinder blocks, drop ceilings, beams, unfinished doorways, or door jams.

INSIDE CORNER kwikSTIK P2-TAPE ON:

PIC

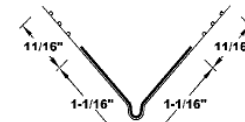

Lgth	Pcs/Ctn	Ft/Ctn
8'	50	400
9'	50	450
10'	50	500

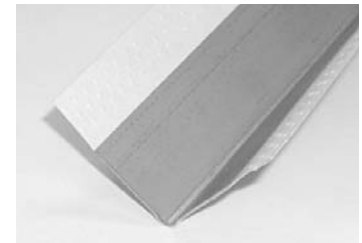

Manufactured for precise inside corners and provides quick and easy installation.

DELUXE SUPER WIDE OUTSIDE CORNER kwikSTIK P1 DELUXE SUPER WIDE - TAPE ON:

PDW

Lgth	Pcs/Ctn	Ft/Ctn
7'	50	350
8'	50	400
9'	50	450
10'	50	500

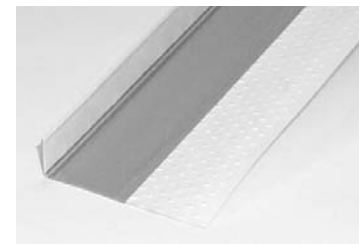

Provides the same extra coverage as P1 Super Wide outside corners and is manufactured with ease and speed of installation in mind.

L 5/8" PAPER TRIM kwikSTIK P4 - TRIM:

PL5

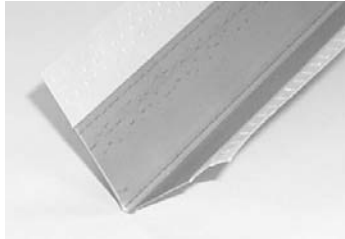

Lgth	Pcs/Ctn	Ft/Ctn
7'	50	350
8'	50	400
9'	50	450
10'	50	500

L-shaped $\frac{1}{2}$ " and $\frac{5}{8}$ " trim is designed for a clean, professional finish. Best for areas where $\frac{1}{2}$ " and $\frac{5}{8}$ " drywall runs adjacent to masonry walls, cinder blocks, drop ceilings, beams, unfinished doorways, or door jams.

**MICRO BEAD OUTSIDE CORNER kwikSTIK
P1 MICRO BEAD -TAPE ON:**

PIM

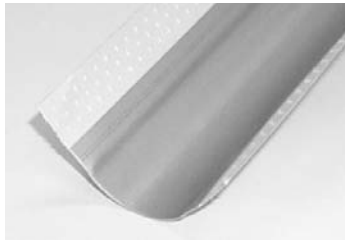

Lgth	Pcs/Ctn	Ft/Ctn
7'	50	350
8'	50	400
9'	50	450
10'	50	500

Manufactured with ease and speed of installation in mind. With the smaller bead and wider flanges, this product goes up fast and requires less mudding, saving both time and money.

**SOUTHWESTERN STANDARD BULLNOSE kwikSTIK
SLOK - TAPE ON:**

PST

Lgth	Pcs/Ctn	Ft/Ctn
7'	50	350
8'	50	400
9'	50	450
10'	50	500

A less expensive substitute for the 3/4" bullnose outside corner and offers the same smooth rounded finish. It does not meet all ASTM C1047 standard.

**SLOK EXTRA WIDE BULLNOSE kwikSTIK
SLOK NXW - NAIL ON:**

PEN

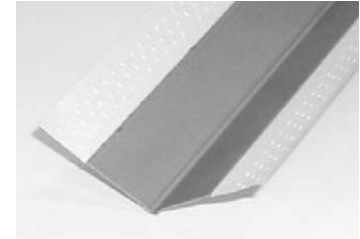

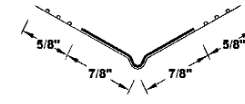

Lgth	Pcs/Ctn	Ft/Ctn
7'	50	350
8'	50	400
9'	50	450
10'	50	500

This bullnose has a wider 7/8" flange which allows for easier installation and added corner coverage when nails, screws, or staples are being used.

**OPEN ANGLE / SPLAY OUTSIDE CORNER kwikSTIK
P1 OS SPLAY -TAPE ON:**

PSS

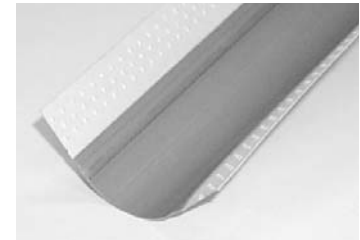

Lgth	Pcs/Ctn	Ft/Ctn
8'	50	400
9'	50	450
10'	50	500

Designed for wider offset outside corners providing easier installation and more consistent mudding.

**SLOK BULLNOSE kwikSTIK
SLOK - TAPE ON:**

PBT

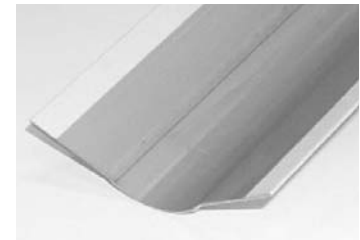

Lgth	Pcs/Ctn	Ft/Ctn
7'	50	350
8'	50	400
9'	50	450
10'	50	500

This bullnose outside corner provides an elegant, smooth finish.

**SLOK OPEN ANGLE / SPLAY BULLNOSE kwikSTIK
SLOK NOS - NAIL ON:**

PAN

Lgth	Pcs/Ctn	Ft/Ctn
8'	50	400
9'	50	450
10'	50	500

Provides a clean and smooth bullnose finish on offset outside corners where nails, screws, or staples are required.
